Thermostat TH/5-30°

Technical Data

ARTICLE INFO

The TH/5-30° is a two-position controller that switches with a changeover contact at the set threshold. The returned continuous signal is evaluated by the ventilation or SHEV control panel and the connected actuators are activated.

Adjustable temperature range from 5 °C to 30 °C

The thermostat TH/5-30° has an adjustable temperature range from 5 °C to 30 °C and is used as an internal temperature-dependent automatic release for ventilation purposes in SHE and ventilation systems. On request, an electronic thermostat with remote sensor is possible.

Thermostat at a glance:

- Eberle room temperature controller RTR 9722
- freely adjustable threshold temperature for thermostat type TH/5-30° from 5 °C to 30 °C
- Can be combined with other operating elements in the building

TECHNICAL DATA

Matchcode	TH/5-30°
Article name	Thermostat TH/5-30°
Part number	A3 4551
IP code	IP 30
Weight	0.08
Housing	Plastic 75 x 75 x 25 mm
Housing type	Plastic
Colour	white
Housing length	75
Housing width	75
Housing depth	25
