Thermostat TH-24/5-30°-S

Technical Data

ARTICLE INFO

The TH-24/5-30°-S switches with a changeover contact at the set threshold value. The returned continuous signal is evaluated by the control panel and the connected actuators are activated.

Integrated on-off switch

The thermostat TH-24/5-30°-S is a two-position controller equipped with an on / off switch and has an adjustable temperature range from 5 °C to 30 °C. It is used as an internal temperature-dependent automatic release for ventilation purposes in SHE and ventilation systems. On request, an electronic thermostat with remote sensor is possible.

Thermostat at a glance:

- Eberle room temperature controller RTR-E 6763 with switch
- freely adjustable threshold temperature for thermostat type TH-24/5-30°-S from 5 °C to 30 °C
- Can be combined with other operating elements in the building
- Operating voltage 24 V DC (exclusively for SHEV, M-SHEV, M-VENT, VENT, VENT-61)

TECHNICAL DATA

Matchcode	TH-24/5-30°-S
Article name	Thermostat TH-24/5-30°-S
Part number	A3 4552
IP code	IP 30
Weight	0.1
Housing length	75
Housing width	75
Housing depth	25
